

Product Information Demotex R

Description	Thin release agent to spray on mould pattern or core boxes. Demotex R is a dispersion of active substances in a solvent mixture.										
Field of use	Moulding and core shop. Demotex R is applicable to all common cold curable core and mould making processes, particularly to hand moulding.										
Application	Demotex R is to use undiluted in supply condition. The release agent should be sprayed thinly and evenly on the clean pattern surface. The processing is done by brushing or spraying by hand. Prior to using the form the flashing off / drying off of the release film is required. If used properly, a multiple demoulding of mould or core is possible.
